Introduction
Lusona gives students the opportunity to investigate the creation of lusona. The goal for students is to learn the ways of drawing lusona.

Student Outcomes
• Students will investigate the process of making lusona.
• Students will become familiar with a new culture.

Technology Use
• Computer with Internet Access
• Paint/Draw program

Tasks
1. Students identify the elements of lusona.
2. Students discuss the questions presented.
3. Students create their own lusona.

Assessment
Students may be assessed on their abilities to discuss the questions. They may display their lusona for the class.

Extension
For other cultural mathematics activities, try the Finger Counting, Regrouping, and Egyptian Numerals lessons.  http://nettrain.unm.edu

New Mexico Content Standards
Mathematics
2) Unifying Concepts and Processes
   Students will understand and use mathematics in communication.
